

Justin Pinter

AI CREATIVE + GROWTH SYSTEMS

Quick-read service menu for high-income local businesses and agencies that need execution without extra headcount

Creative, AI, web, ads, and automation in one contract lane.

A practical, white-label-friendly way to get sharper marketing output, better campaign assets, smarter workflows, and polished creative without hiring a full internal team.

BEST FIT

Busy owners, lean teams, and agencies with overflow production needs.

Start with an audit, sprint, workshop, website/landing page, ad support, automation setup, or monthly creative retainer.

Spokane + Remote

White-label friendly

Fixed scope

AI-native

Services

- 01 AI Creative Production**

Practical AI workshops for owners, marketers, agencies, and teams.

- 08 White-Label Agency Support**
Behind-the-scenes creative, AI production, campaign packaging, and execution support.

Starting ranges

Larger builds are quoted after a fit call and scope. Pricing depends on timeline, deliverables, ad spend, and implementation complexity.

AI + Marketing Opportunity Audit

\$500-\$750

Website, offer, social, ads, and workflow teardown with prioritized quick wins.

AI Creative Growth Sprint

\$1.5k-\$2.5k

Messaging, campaign angles, AI visual concepts, video/script directions, and content plan.

Website / Landing Page Build

\$2.5k-\$6.5k

Page strategy, copy direction, visual design, launch support, and analytics/ad alignment.

AI Automation Setup

\$2.5k-\$7.5k

Workflow map, tool recommendations, agent/prompt setup, and team handoff notes.

Social + Ad Creative System

\$1.5k-\$3.5k

Content pillars, posting cadence, creative templates, short-form video, and ad concepts.

Digital Advertising Support

From \$1k/mo

PPC, Meta, native, geofencing, OTT/CTV, creative testing, and reporting support.

Private AI Workshops

\$200-\$400/hr

One-on-one or group training for practical AI workflows and implementation.

Creative / AI Retainer

\$2k-\$6k/mo

Monthly priority queue for creative, content, ads, automation, or white-label support.

HOW PROJECTS WORK

1. Fit call

Confirm goals and urgency.

2. Scope

Define deliverables and price.

3. Build

Produce assets or systems.

4. Handoff

Package next steps.

Ready to scope a sprint?

Send the goal, timeline, and what you need built. I'll suggest the cleanest starting point.
